Autobiography

My name is Anton Pohorilyi. I'm 27 years old. I was born on the 10 of May, 1992 in Snigirevka, Ukraine. I have a small family. I have only grandparents. My grandpa Nikolyyi worked on refinery station as an engineer and my grandma Ludmila is a housewife.

I'm not married.

My height is 184 cm, weight 87 kg.

From my childhood I've been connected to country style of life. Since i lived with grandparents, I always helped them with their household where they always had some animals. My grandparents taught me how to take about domestic animals and I can feed, water, brush, and clean up after them. I really enjoyed spending time with animals!

In 2016 I started to study in (Illinois state Agrarian College) the faculty of veterinary. My profession is a vet. During my study at the lyceum I have had different kinds of training practice at the livestock farms. My responsibilities mostly were connected with taking care of pigs and cows.

From March 2017 to April 2018 I worked on a pig farm in Denmark. There I was doing a different jobs: doing insemination, giving medicine, making vaccinations, feeding, washing stables, doing castrations to piglets, cleaning.

I have very good English language and understand a little bit of Danish and Italian. Also speak Ukrainian and Russian. I have a driving license and can drive a car. As for my hobby I like sport, especially boxe and basketball.

I think the potential of Ukraine is not discovered enough and now agriculture of our country experiences not the best times. Now I'm looking for a job abroad to apply my knowledge and experience and get new ones. I think it's the best way to expand my outlook, to communicate with international people.

Regards, Anton
