Autobiography

My name is Tetiana. I am 32 years old. I was born in 1986 in the village in Kirovohrad region. I have a large family. My father Oleksandr works as a driver. My mother Halyna works as accountant. My sister works as a teacher. My brother works as economist. I am not married. My height is 158 cm, weight 55 kg.

Most of my life I spent in the village. Every year, with my parents, I planted a lot of different vegetables, took care of them and harvested the crops. Also I had to plant trees, bushes, flowers and carry out care of them.

I studied at secondary school and my favorite subjects at school were Biology and English.

After finishing my school study I went to the city and found a job there because I wanted to be independent and have my own money. I worked in the sphere of sales. I was a seller for many years.

In 2018 I entered Agrarian Lyceum, the faculty of veterinary. While studying I had a practice term in greenhouses which belong to the lyceum. There I did taking care of plants, watering, fertilizing, planting, transplanting, sorting.

I can speak English language. Also speak Ukrainian and Russian.

As for my hobby I like to do yoga and cycling.

In the future, I want to work in agriculture as this direction in Ukraine is the most promising. I think that job in Denmark at the farm is the best way to expand my knowledge and gain new experience.

Regards,

Tetiana
