Autobiography

My name is Danylo Kolesnyk. I'm 27 years old. I was born on the twenty-fourth of August, 1993 in the town of Obukhiv. I have a big family. I am the eldest in the family. I have two younger brothers and two younger sisters. I am married but I have no children yet. My father Mykhailo is a tractor driver. My mother Zhanna works on a paper factory.

My height is 176 cm, weight is 72 kg.

I studied at secondary school and on summer holidays I usually stayed in the village. There I helped my grandfather and uncle with growing vegetables and with building. I built fences and barns. Those were the happiest time for me because I got new skills and experience.

After school in 2010 I entered Professional Agrarian Lyceum, the faculty of carpentry. I was studying for 3 years. While studying I developed my skills and got new knowledges in the sphere of building.

In April 2016 I started to work as a carpenter in Ukraine and worked there till June 2019 . I made and repaired roofs. My duties were:

- instalation of a rafther part of a roof,

- installation of various types of roofs (metal tiles, bituminous tiles, ceramic tiles),

- making of roofs, rafter system,

- installation of attics, spill system,

- production of walls on frame technology

I can speak English. Also speak Ukrainian and Russian. I am a hard-working, intelligent and honest person. I think I have good experience and I can work as a skilled worker. I can work independantly and in a team. I can work with different building equipments, like a chainsaw, a circular saw and diferent small and big tools.

As for my hobby I like running in the morning, having rest outdoors and travelling. I was almost in all cities in Ukraine, was in Russia, Bulgaria and I want see the world.

Now I would like to go to Denmark and find a job in the sphere of building. I would like to apply my knowledge and skills and get new ones. I think it's the best way to expand my outlook, to communicate with international people.

Regards,

Danylo
