Other language(s)	English - Good
Driver licence	Car
Equipment experience	Tractor(good)
6. Hobbies and interests	Sport and games (candidate master of sports in Greco-Roman wrestling)
7. Job start date	As soon as possible

Autobiography

My name is Artem Artemenko. I am 28 years old. I was born on February 26th 1994 in Zolotonosha, Cherkassy Region, Ukraine. My father Vasili works as a driver for a local construction company and my mother Valentyna is a baker at the local confectionary. I am not the only child in the family. I have also got a sister, who is 2 years older. My sister Vitalina is a pharmacist.

In 2012, I graduated from the Specialized School of Information Technologies. From my childhood I've been acquainted with countryside style of life. In my school years I spent my summer holiday at my grandparents. My grandparents are the owners of a small family business connected with dairy production. I used to help them with the household and take care of the livestock, so I possess all the skills necessary to be a proficient farm worker. They had a big household and it was the first time when I participated in agriculture industry. I helped them to take care of animals and did some field works. They also had a big fruit garden where I took care of fruit trees.

In 2012 I entered Kremenchug National State University. During the university years I managed to combine studying with working for a Finnish agricultural company (temporal summer job at the Private Riski Farm, Sauvo village, Finland), which gave me the priceless experience of working abroad and developed my teamwork, leadership and communication skills. I was responsible for driving agricultural vehicles, gathering and transporting crops. As to my professional career, in October 2018 till March 2019 I started to work at the local Mechanic Factory as a fitter's apprentice, then, I got a promotion and continued working as a logistics specialist.

The year 2019 gave me the opportunity to broaden my career prospects. I started working as a steward on board the cruise ship "Thompson Majesty". I had been in service for three months there. Being a part of the crew staff added greatly to the development of my interpersonal skills such as responsibility and tolerance to the multicultural environment. Furthermore, my English communication skills had been upgraded greatly.

In 2020 I entered Professional Agrarian Lyceum the faculty of agronomy. While studying, I worked in the greenhouse, where I had a practice. I did weeding, fertilizing, planting and transplanting and pruning of trees.

I can speak English. I am a fluent English speaker now. Also I know Ukrainian and Russian. I can drive a car, a tractor and a loader. I have got a valid driver's license (categories A, B, C). Besides, I have practical skills in working with a drill, a chainsaw and skills in a building sphere. I am a hard-working and communicative person. I can work both independently and in a team. Sport has always played an important role in my life as well. I am a Candidate for Master of Sports in Greco-Roman wrestling.

My goal of getting Finland is getting invaluable experience in agricultural industry. I am looking for the career opportunities in this field so that I can gain the experience and further develop my own business in this sphere. Ukraine is in bad conditions now. We are having the war. So my goal is to gain the experience and help my country to develop its potential in the agricultural sphere after the war.

Regards, Artem
