Autobiography

My name is Nazar Makarchuk. I am 18 years old. I was born on July 24, 2006 in the village of Puzhaykove, Odessa region. My family has been involved in agriculture for several generations. We own over 42 hectares of land and have the necessary agricultural machinery for growing and harvesting various crops. We also have a family farm, four cows, ten calves, and a lot of different poultry. I have experience working on a pig farm for nine months in Germany, harvesting fruit for three weeks in Norway. Five months of work in a warehouse. I like to gain diverse experience in the agricultural field, especially plant growing, so I think the opportunity to spend on a flower farm would be a great option. I am confident that in the future I will be able to implement this experience in my country with new technologies, like in Norway
