Autobiography

My name is Vadym. I am 27 years old. I was born in Zhytomyr. I am married. I have a big family. I have got a father, a mother, a sister, a grandmother. My father is a driver. My mother is a controller. My sister is a student. My grandmother is on pension.

My grandparents have some land for growing plants. I spend much time helping my grandfather and grandmother grow, care and gather vegetables and fruit. Also we take some horticultural products from my grandparents farm for ourselves. As for my duties I always help with: seeding, cutting , laying compost, sowing seeds, digging, planting out seedling of plants, etc.

At the age of 7 I went to school. In 2008 I finished it and decided not to enter the institute but stay at my grandparents home and help them to plant different plants in the garden. Then I was in the Army.

In 2015 I entered Agrarian Lyceum, agronomy department. I studied for 3 years and in December 2018 I graduated.

In May 2016 I went to Denmark for internship. I worked for one year at a flower farm and had such duties as taking care of flowers,

planting, spacing,

potting, sorting, packing.

I have a driving license category B and can drive a car.

I have many hobbies and interests. I love to play sports, to write poems, to read.

Now I am looking for a job in Norway. That is good chance to learn something new in agriculture. That experience can help me to a good job in future. I think work abroad is the best way to learn new, make new communication with people and practice English.

Regards,

Vadym.
